*** From Pistrucci's own collection. Accompanying this lot is Pistrucci's description of this piece in his own handwriting and signed by him. The following is a translation of the most interesting portion of his remarks :

The Proof is that of the *rev.* of the Two Pound Pieces of George III and George IV. It is of the highest rarity as being the only one struck from the original die without any retouching, as shown by the dot which is found on the body of the horse. This piece is my property, as it was given to me by Mr. Pole ; it is the first trial for the size of the Two Pound Piece, and the first done before obtaining the office of Chief Engraver at the Mint.—B. PISTRUCCI.

181 **Pattern Sovereign** (or **Guinea**), 1816, by *Thomas Wyon*, after jasper model by *Pistrucci*, *obv.* GEORGIUS III DEI GRATIA, bust, laureate, in high relief, to right, neck bare, tie to hair with long ends terminating in globules ; *rev.* BRITANNIARUM REX FID . DEF commencing at the bottom of the coin ; shield crowned, date below, 18 - 16, divided by the point of the shield, edge plain (*Num. Chron. vol.* XIII, *p.* 124, *no.* 65, *brilliant and extremely rare* [Pl. I] 1

182 **Pattern Sovereign**, 1816, by *Thos. Wyon*, type as the last but the bust is larger, whilst the lettering and flan are smaller ; *rev.* as the last piece but the lettering also smaller, edge grained, *extremely fine and believed to be absolutely unique, unpublished* (*no* 5) 1

*** From the Pistrucci collection. Accompanying this lot is Pistrucci's autograph and signed history of this coin, of which the following is a translation :

Proof in gold of the Sovereign of George III, which was never issued to the public ; unique, and in consequence rare. This was copied by Thomas Wyon, Chief Engraver at the Mint, from a cameo made by me for Sir G. Barcke. It never came out because the work copied from mine made the relief too high, and thus it would have been impossible to coin. The Mint-Master, Mr. Pole, was convinced that the reason why this piece was unsuitable rests in the fact that the original was not calculated for a coin, and therefore the sovereign was never issued. This said proof was presented to me by Mr. Pole, Mint-Master, and was the first and last struck, the die having broken, as may be seen from the proof of a shilling, which I have with the same head, and the visible flaw in the flan in a straight line on the face.—B. PISTRUCCI.

183 **Pattern Sovereign**, 1816, by *Pistrucci*, large laureate bust in low relief, two long curls terminating in pellets depend from the bow behind ; *rev.* square shield, crowned, the date on both *obv.* and *rev.*, edge grained (*N. C. vol.* XIII, *p.* 125, *no.* 67), *brilliant and very rare* 1

184 **Another**, similar in all respects, *equally fine and rare* 1

*** From the Doulton collection, 1888.

185 **Pattern Sovereign**, 1816, by *Pistrucci* and *T. Wyon*, large bust, laureate, to right, in low relief and presenting both shoulders ; *rev.* as the last, edge plain, *brilliant and very rare, but not unique as stated by the artist in his note* (*q. v.*), (*no.* 2) 1

*** From Pistrucci's own collection. Accompanying this lot is the artist's autograph note *re* this coin, and signed by him. The following is a translation of the note :

Enclosed is a gold proof of a sovereign of H.M. George III. The head is copied from a cameo by myself, which is in the possession of the Royal Mint Cabinet of Coins and Medals. T. Wyon is the engraver. This piece is extremely rare because it is unique : the arms are different from all the coins that were issued. The piece is my property, having been given to me by Mr. Pole.—B. PISTRUCCI.

186 **Pattern Sovereign**, 1816, by *Pistrucci* and *T. Wyon*, precisely as the last piece described, *equally brilliant and very rare, and unusually heavy* 1

187 **Another**, similar, but with grained edge, *brilliant and extremely rare* 1

*** From the Doulton collection, 1888.

188 **Proof Sovereign** (undated), by *Pistrucci*, *obv.* head of George III, no legend either side ; *rev.* St. George and the dragon ; struck whilst the dies were in preparation, edge plain, *extremely fine and believed to be unique* (*no.* 6) [Pl. I] 1

*** From Pistrucci's own collection. Accompanying this lot is the artist's note, in his own handwriting, and signed by him. The following is a part translation of this very interesting description by Pistrucci of the progress of his work :

Extremely rare proof of a sovereign, with head of George III, finished, but without the lettering, the reverse is unfinished ; my first work with the graving-tool, and struck without a collar. One may like to know that, when I did this work, I had had no practice as yet in engraving on steel. After having engraved the puncheon, I had it tempered in its unfinished state, and a die executed from it. I had the surface of the die planed, and then struck this proof coin to see the effect of my work. After this, I made another puncheon, which I finished, feeling sure that my work was raised over a flat surface. One will see on this piece the marks of the wire-work design, which I drew to be sure of what I was doing, a thing I never had to do when engraving cameo, an art in which I had much more practice.—It will be noticed further that the handle of the spear is shorter than on the current coins with the same St. George, and this I did so that the spear-handle should not pass over the horse, which did not seem tasteful to me.—This piece is one of the most curious of my small series of proofs, and I value it very highly because it is my first work which I saw struck from the presses at the Mint, &c. &c.—B. PISTRUCCI.

189 **Pattern Sovereign** (*reverse* only), by *Pistrucci*, struck without a collar and therefore with plain edge, differing from the Sovereign finally adopted in having St. George's left arm as well as hand showing behind the horse's neck, *extremely fine and probably unique* (*no.* 3) 1

*** Pistrucci's signed autograph description of this coin accompanies this lot. The following is a translation of a portion :

This St. George is the first work I have done in my life with the graving-tool, and for this reason the public will excuse if it is not so fine as the later ones ; besides, it was spoiled through the mechanical operations at the Mint, or by accident, or maliciously, in order that my work should appear before the public more imperfect than that which I knew to be without taste.—B. Pistrucci.

190 **Proof Sovereigns** (2), (*reverses* only), by *Pistrucci*, nearly as the last, but here the left arm is omitted in the design, the hand only being visible holding the reins ; both struck without a collar and with plain edge, *very fine and the pair doubtless unique* (*no.* 9) 2

*** Pistrucci's signed autograph note accompanies this lot ; the following is a translation of a portion :

Enclosed are two proofs in gold of the reverses of the sovereigns of H.M. George III. I may mention the history of these two proofs. The reader must be aware that this work was the first I did with the graving-tool, without ever having seen anybody engraving in steel ; it is therefore not one of my best, but one should bear in mind that it requires ten years' practice to do such work well. I did it to satisfy Mr. Pole, who ordered it.—These proofs were struck from a die which had passed four times through the fire, and got worse each time, the action of the fire spoiling the edges, and I am only surprised that they are as good after so many experiments. I had these proofs made, as I wanted to see the effect of the hand holding the bridle, as, after having completed my work from my model, they made me change the hand, which was at first showing a portion of the arm, to what is now seen on the current coins. These are of the highest rarity and unique. Presented by Mr. Pole.—B. Pistrucci.

191 **Pattern Sovereign**, 1817, by *Pistrucci, obv.* as the current Sovereign ; *rev.* as the Pattern in lot 189, viz. with the left arm as well as hand of St. George showing in the design ; struck without a collar, *very fine except for two nicks on the edge ; believed to be unique, but Pistrucci has left no note of this piece, though it is from his collection* 1

192 **Proof Sovereign** and **Half Sovereign**, 1817, by *Pistrucci*, grained edges, *brilliant and very rare, the Half especially rare* 2

*** No. 1 is from the Montagu (1888) collection ; no. 2 is from the Richardson cabinet.

193 **Proof Sovereign** and **Half Sovereign**, 1818, as before, grained edges, *brilliant and very rare* 2

*** Both are from the Copp collection, 1887.

194 **Proof Sovereign**, 1819, type and edge, &c. as before, *brilliant and excessively rare, as this is an unpublished date* [*cf. Hawkins* (*N. C.*), *and Kenyon*] 1

195 **Proof Sovereign**, 1820, as the last, *brilliant and rare* 1

196 **Pattern Half Sovereign**, 1816, by *T. Wyon*, *obv.* GEOR : III D : G : BRITT : REX F : D : 1816, laureate bust to right, neck bare ; *rev.* BRITANNIARUM REX FID : DEF : the rose, thistle and shamrock on rose-stem occupying the field, crown above, edge grained ; *brilliant and of the highest rarity, unpublished by Hawkins* (*cf. N. C. vol.* XIII) 1

*** From the Sainthill, Addington and Montagu collections, 1890.

197 **Pattern Half Sovereign** or **Sixpence**, 1816, by *Thos. Wyon*, from a cameo by *Pistrucci*, *obv.* GEORGIUS . III . DEI . GRATIA . large bust, laureate, in high relief ; *rev.* BRITT : REX FID : DEF. garnished shield within the garter, surmounted by crown dividing the date 18 – 16, lettering on both sides very small, edge plain, *brilliant and exceedingly rare* [Pl. II] 1

*** From the Marshall, J. H. Young, Bieber and Montagu collections, 1890.

198 **Pattern Half Sovereign** or **Sixpence**, 1816, by *Thos. Wyon*, from a cameo by *Pistrucci*, type and legends exactly as the preceding coin, but the edge is grained ; *imperfectly struck, but believed to be unique with this edge* (*no.* 8) 1

*** Pistrucci's own autograph remarks (signed), accompany this lot. The following is a translation of the note referred to :

Proof in gold of a head which was copied from one of my cameos by Mr. T. Wyon, First Engraver at the Mint, and the puncheon of which was afterwards retouched by me. The workmen at the Mint were unable to strike this piece on account of its too high relief, and would not give themselves the necessary trouble in order to please Mr. Wyon, who could not bear with good grace that a work of his, retouched by me, should be issued. The same head was struck on a sovereign and on a shilling, which, however, were never issued ; therefore it is of the highest rarity and unique. It was presented to me by Mr. Pole, of whom I asked the favour of keeping a record of my work.—B. PISTRUCCI.

199 **Pattern Half Sovereign**, 1820, by *Thos. Wyon*, exactly as the Pattern 1816 (in lot 196) but with the edge plain, *brilliant and exceedingly rare* [Pl. II] 1

*** From the T. Brown, Addington and Montagu (1888) collections.

*** No. 1 is from the Marshall, Brice and Montagu (1888) collections. Kettle's Guinea is also from the Montagu cabinet, 1891.

247 **Pattern Half Guinea**, 1798, by *Lewis Pingo*, exactly as the gold pattern described under lot 166, *brilliant and probably unique, published in Spink & Son's Catalogue (H.M. Coll.), no.* 585 1

*** From the Murchison collection.

249 **Pattern Five Pounds**, 1820, by *Pistrucci*, exactly as the gold Pattern (lot 176), with edge inscribed, the artist's name under the bust is unusually distinct and this is probably one of the first specimens struck, *very fine and believed to be absolutely unique in this metal* 1

*** From Pistrucci's own collection, but he has left no notes or reference as to this specimen.

250 **Pattern Two Pounds**, 1820, by *Pistrucci*, type, legends and edge exactly as the Five Pounds, with the exception that the artist's name is omitted and his initials (B.P.) are on the reverse only, in exergue, *brilliant and of the highest rarity, as this and its companion in the following lot were the only specimens struck in silver (no. 8a)* 1

*** From the Pistrucci collection. The artist's own autograph note (signed) accompanies this lot. The following is the translation:

Enclosed are two proofs of the Two Pound Piece of H.M. George III, struck in pure silver. They were struck by me at the Royal Mint in London, as trials for the width of the flan, and to see whether the letters on the edge of the gold coins would come exactly in the centre. I did this with the permission of Mr. Pole, mint-master, and I did these experiments in silver, because there was no gold prepared as yet to strike. These proofs are of the highest rarity, as being the only two struck in that metal, and rarer still as being the first two which came out from the die. They remained in my possession with the permission of Mr. Pole; I paid their intrinsic value to Mr. Bradby, clerk to the mint.—B. PISTRUCCI.

251 **The Companion Piece**, *equally fine and rare* 1

252 **Pattern Sovereign** (or **Shilling**), 1816, by *Thomas Wyon*, Laureate bust in high relief from a jasper model by *Pistrucci*, GEORGIUS III DEI GRATIA; *rev.* Square shield, BRITANNIARUM REX FID: DEF: 1816 below, edge obliquely milled (*Num. Chron. vol.* XIII, *p.* 124, *no.* 65 *var.*), *not published by Hawkins with this edge, extremely fine and of the highest rarity* 1

*** From the J. Marshall, Brice and Montagu collections.

253 **Pattern Sovereign** (or **Shilling**), undated, by *Thos. Wyon*, *obv.* as the preceding coin; *rev.* BRITANNIARVM REX FIDEI DEFENSOR, square shield crowned, edge straight graining (*Spink & Son's Cat. H.M. coll. no.* 588), *of the highest rarity, only two specimens believed to be known and not published by Hawkins in Num. Chron. vol.* XIII, *very fine* 1

*** From the Cuff, Bergne, Brice and Montagu (1888) collections.

254 **Pattern Half Sovereigns** (or **Sixpences**) (3), 1816, by *Thos. Wyon*, from a cameo in red jasper by *Pistrucci*, type as the gold piece in lot 198, two with grained edge and the other with plain edge but not struck in a collar, *all faultily struck but very rare* (*no.* 11*d*) 3

*** From the Pistrucci collection. There were originally five coins, according to the artist's signed autograph note, which accompanies this lot, which included one more sixpence and a pattern shilling. The comparatively modern Italian copy of Pistrucci's note states, however, that two pieces have been sold. The artist's note is not translated here as his remarks are much to the same effect as those he makes regarding the similar pattern in gold under lot 198 (*q. v.*).

255 **Pattern Half Sovereigns** (or **Sixpences**) (2), 1816, as the previous lot but well struck up, one with plain edge and one with edge grained; *both brilliant and very rare* 2

*** From the Montagu collection.

256 **Pattern Crown**, 1817, by *Pistrucci*, *obv.* GEORGIUS III DEI GRATIA BRITANNIARUM REX F: D: 1817, large bust to right, laureate, neck bare; *rev.* St. George and Dragon within the Garter, the latter ruled with fine horizontal lines, the field divided by faint lines into squares, a pellet upon the horse's body, struck on a large thick flan with plain edge, the obverse without the flaw noticeable on the coin which follows, *brilliant and believed to be unique from the unfractured die* (*no.* 12) [Pl. II] 1

*** From Pistrucci's own collection. Only a fragment remains of the artist's history of this and three other crowns, two of which are stated to have been sold, the fourth forms the succeeding lot.

257 **Pattern Crown**, 1817, by *Pistrucci*, exactly as the last piece, excepting that the die is fractured on the *obv.* near the date, edge plain, *brilliant, of the highest rarity* 1

*** From the Pistrucci collection.

258 **Pattern Crown**, 1817, as the preceding in all respects, and also showing the fracture on the *obv.*, *brilliant and of the highest rarity, this and the two preceding lots account for three out of the four pieces alluded to by Pistrucci* 1

*** From the Hawkins, J. Marshall, Brice and Montagu collections.

259 **Pattern Crown** (*rev.* only), from the same die as the previous three lots, edge plain, *marked no.* 2 *in ink on the back as two were struck and Mr. Pistrucci believed* (*erroneously*), *the other to have been destroyed. It however passed into the late Mr. Murdoch's hands through an unknown channel in* 1893 (*see next lot*), *brilliant and of the highest rarity* (*no.* 6) 1

*** From the Pistrucci collection; the artist's autograph remarks anent this and the following coin, accompany this lot. The translation is as follows:

Proof in silver of the *rev.* of the Five Shilling Piece of George III which was struck at the same time as another which was either broken or remained in Mr. Pole's possession. The piece is rare because the Garter is different from that on the others, and the coin has the dot in centre of the original die. It was given me by Mr. Pole as usual. On the other side of Pistrucci's note he says: I know for certain that the first was destroyed.—B. PISTRUCCI.

260 **The Companion Piece**, *equally fine and rare, and doubtless the piece which Pistrucci thought was destroyed* 1

261 **Pattern Crown**, 1817, by *Pistrucci*, bust and legends as on Pattern in lot 256, but reading BRITANNIAR instead of BRITANNIARUM; *rev.* St. George and Dragon within the Garter, outside of which is a beaded border, edge *incusely* inscribed on a sunk band DECUS ET TUTAMEN ANNO REGNI QUINQUAGESIMO Ч (*sic*) SEPTIMO, flan usual size, *wt.* 435 *grs.*, *without artist's initials, extremely fine and probably unique* [Pl. II] 1

*** From the Cuff, Forster, J. Marshall, Brice and Montagu collections.

262 **Pattern Crown**, 1817, by *Pistrucci*, *obv.* GEORGIUS III D: G: BRITANNIARUM REX F: D: 1817, bust as on Pattern Crowns in lots 256 and 261; *rev.* St. George and Dragon within the Garter, the motto in larger lettering than on the previous coin, beaded outside border: edge, inscribed in raised letters within fine cord borders, DECUS ET TUTAMEN · ANNO REGNI LVIII ·, *wt.* 436 *grs.*, without artist's initials, *brilliant and of the highest rarity if not unique* [Pl. II] 1

*** From the Hawkins, Bergne, J. Marshall, Brice, and Montagu collections.

263 **Pattern Crown**, 1817, by *W. Wyon*, exactly as the "INCORRUPTA FIDES VERITASQUE" gold Crown in lot 200; edge plain, *brilliant and extremely rare* 1

*** From the Copp collection, 1887.

264 **Another**, similar, *equally brilliant and rare* 1

265 **Pattern Crown**, 1817, by *W. Wyon*, exactly as the FOEDUS INVIOLABILE gold Crown in lot 201; edge plain, *brilliant and rare* 1

266 **Another**, similar, *equally fine and rare* 1

267 **Pattern Crown**, 1818, by *Pistrucci*, *obv.* GEORGIUS III D : G : BRITANNIARUM REX F : D : 1818, very large head, laureate, to right, neck short and bare, artist's name in full beneath; *rev.* St. George and Dragon within the Garter, artist's name in full in exergue, the Garter ruled with fine horizontal lines; edge plain, a toothed border each side, struck from a finished die, *brilliant and very rare* 1

*** From the Bergne, Marshall (of Belmont), Halliburton-Young, Bieber, and Clark collections.

268 **Another**, similar, edge plain, *equally fine and rare* 1

269 **Pattern Crown**, 1818, by *Pistrucci*, exactly as the two preceding Patterns but with the edge inscribed in large lettering occupying the whole width of the edge, *brilliant and very rare* 1

*** From the Bergne, Brice, and Montagu (1888) collections.

270 **Another**, similar in all respects to the last Pattern, but with the edge inscribed in smaller letters which do not occupy the whole width of the edge, *brilliant and believed to be unique with this edge* 1

*** "This is an exceptionally rare Crown having small letters on inscribed edge, being the only one I know of with this edge."—J. G. M.

271 **Pattern Crown**, 1818, by *Pistrucci*, *obv.* as the preceding four Crowns except that the die is not polished and the toothed border is coarser; *rev.* St. George and Dragon within broad Garter, ruled with fine horizontal lines, larger lettering for the motto and without the toothed border; edge plain, *wt.* 435 *grs.*, *as struck*, *but surface not polished*, *of the highest rarity*, *probably unique* [Pl. II] 1

*** From the Hawkins, Bergne, J. Marshall, Brice, and Montagu collections.

272 **Pattern Crown**, 1818 (*obv.* only), by *Pistrucci*, *obv.* GEORGIUS III D : G : BRITANNIARUM REX 1818, laureate bust nearly as upon the current Crowns but differing in the expression on the king's face; the artist's name in full beneath; edge plain, struck from a fractured die but considered by Pistrucci himself (*see note*) to be "the

Lot 272—*continued.*

best head which I ever did for that coin," *extremely fine and unique* (*no.* 10) [Pl. III] 1

*** From the Pistrucci collection. Accompanying this lot is the artist's autograph history of this remarkable coin. The following is a translation from the Italian :—

Enclosed is a proof of the head of the Five-shilling Piece of George III, of extreme rarity, being unique, the die having broken as may be seen by the flaw in the impression. This is different from all, and as regards the work it is the best head which I ever did for that coin. I never succeeded in re-doing it as fine, notwithstanding the innumerable times I had to repeat the puncheons and dies of the said coin, which broke, and although I nearly always used the remainder of this puncheon to do the others, it will be clearly seen that the first is always the best. This is in my possession as the mint master gave it to me, as he did at other times, not asking me for the payment of the metal as I was obliged to pay afterwards.—B. Pistrucci.

273 **Pattern Crown**, 1818, by *Pistrucci*, *obv.* legend as upon Pattern Crown (lot 267, &c.) but the lettering is larger, smaller laureate bust, to right, neck bare, artist's full name beneath ; *rev.* St. George and Dragon within the Garter, etc. as in lot 267 ; edge inscribed as usual, ending ANNO. REGNI. LVIII., *brilliant and very rare* 1

*** From the Montagu (1888) collection.

274 **Pattern Crown**, 1818, by *Pistrucci*, type as the current Crown, the lettering on *obv.* being smaller than in the preceding coin ; *rev.* as the last, except that the horizontal ruling of the Garter is omitted ; edge *incusely* inscribed DECUS ET TUTAMEN ∗ ANNO REGNI LVIII ∗, *brilliant and believed to be unique with this incuse lettered edge* 1

275 **Proof Crown**, 1819, by *Pistrucci*, exactly as the last piece, excepting date ; edge inscribed in raised letters as usual and reading ANNO REGNI LX ·, *brilliant and very rare as a proof* 1

*** From the Bergne, Briee, and Montagu collections, 1890, and described in the Bergne catalogue as "*a most beautiful proof of the circulating Crown of* 1819, *with inscribed edge, extremely scarce.*"

276 **Pattern Crown**, 1820, *obv.* VIS VNITATE FORTIOR, Hercules, seated by a column, endeavouring to break a bundle of sticks across his left knee ; in exergue, date and wreath ; *rev.* DECVS ET TVTAMEN, crowned shield ; edge plain, *brilliant and extremely rare in this metal* [Pl. III] 1

*** From the Rostron collection, 1892.

277 **Another**, similar, *equally brilliant and rare* 1

278 **Pattern Crown** (undated), by *Mills* and *Mudie*, GEORGIVS III DEI GRATIA, laureate bust to right ; the artist's initials beneath ; *rev.* four shields of arms, each crowned, the emblems of the three kingdoms and Hanover disposed in the angles ; edge plain, *brilliant and scarce* 1

279 **Another**, similar, *not quite so fine* 1

280 **Pattern Dollars** (2), 1798, by *Küchler*, mantled and laureate bust to right, ⁘ C. H. K. beneath one, ·· K beneath the other; *rev.* crowned shield of arms, *both original impressions, the first fine, the second brilliant and a scarce and unpublished* (?) *variety* 2

*** No. 2 is from a sale at Preston, 1900.

281 **Pattern Dollars** (2), 1804, by *Küchler*, *obv.* as the preceding, but the C. H. of the artist's initials hardly visible; *rev.* shield with the Garter circular, crown above, dividing the date; below the Garter, the word DOLLAR; both struck over Spanish dollar, portions of the original lettering being visible whilst in one is a portion of the well-known octagonal stamp so often seen upon the dollars of this period, *both brilliant and scarce* 2

282 **Proof Bank of England Dollars** (2), 1804, by *Küchler*, usual type; and a modern re-strike of the Dollar, composed of two obverses alike but with different legends, *all brilliant* 3

283 **Proofs** (5), obverses only *incuse* of the Half Crown of the second issue (George III), by *Pistrucci*, numbered 1 to 5 at the back and illustrating the progress made by the artist at different stages of his work, no legends, *all extremely fine and forming doubtless a unique set* (*no.* 4) 5

*** From the Pistrucci collection; originally there were six to the set, but the original document, signed by Pistrucci, which goes with this lot states that one had been sold, evidently many years ago. The following is a translation of a portion of Pistrucci's interesting notes :—

To do this work (i.e. the Half Crowns) which was my second in steel I had from time to time incuse proofs made of the puncheon in order to verify the perfection of the flan before going on with the work. This I did with the permission of the Master of the Mint, because I did not want Mr. Wyon to deceive me, as he had done previously in making me work on a false (uneven ?) surface and I explained that I could not get along with the work which was quite lost, and that I was obliged to begin again three times, because I had been given a bad puncheon to work upon. At the end the mint master remonstrated with Mr. Wyon, who was obliged to give me a good puncheon, which is the one with which I produced afterwards the Half Crowns of George III, showing the neck only.—B. PISTRUCCI.

*** All from the Pistrucci collection; accompanying this lot is Pistrucci's signed autograph explaining his work on the unfinished Half Crown. The following is a translation :—

Proof of the head of the Half Crowns of George III, a work by T. Wyon, chief engraver at the Mint, and retouched by me with the diamond point. This head was copied from one of my cameos preserved at the Mint, but was never issued, the puncheons of the said head, retouched by me, were burnt several times at the Mint. They are extremely rare as, although they resemble the Half Crowns in circulation, they differ much in the face, which on the common coins is more morbid. Given to me by Mr. Pole.—B. PISTRUCCI.

287 **Proof Half Crowns**, 1817, 1819, 1820, with the small head of the king, that of 1817 with plain edge, the others grained, *all brilliant and rare* 3

*** No. 1 is from the Cuff and Gibbs cabinets, no. 2 from the Rostron sale, and no. 3 is from the Brice and Montagu collections, 1890.
